

COLLABORATION GRANT: RESEARCH ASSISTANT / TECHNICIAN

Applications are invited for a part-time collaboration grant in the Multisensory Research Group (MRG), at the Center for Brain and Cognition in Universitat Pompeu Fabra. The position is covered by a European Research Council Starting grant on Multisensory integration and attention (MIA; project number 263145).

Job description:

Provide research support for studies addressing the neural and cognitive bases of human perception and attention. Some of the tasks are: Assist in software development and building simple setups for experiments, database maintenance and update, group web maintenance and update, assistance in analysis of experimental data, support in administrative and organizational tasks.

Candidate requirements:

- Good programming skills (e.g., Matlab).
- English skills.
- Good organization, responsibility, neatness.

Additional:

- Final year degree/ Master students.
- It is desirable that the candidate lives in Barcelona.

Conditions:

- 25 hours/week.
- 6 month collaboration fellowship.
- Salary: 850 Euros/month.
- Starting date: September.

How to apply:

Prospective candidates should send a short cover letter and a CV to applications.MRGLab@gmail.com, mentioning "Collaboration grant 2013" in the subject of the mail.

Following a selection of the CVs, some of the applicants will be contacted for a personal interview.

For more information, please contact Salvador Soto-Faraco and check our research group web (<http://www.mrg.upf.edu>) or lab web (<http://lnucc.upf.edu/>).
